OUR OFFER

VAN RACKING SYSTEMS

ABOUT US

Van Care has been a manufacturer in the field of commercial vehicle Van Racking Kits for many years. Our head office is located in Beek, The Netherlands, and our team consists of four employees. The production site is based in Poland, and has 100 employees.

Van Care offers a suitable solution for every commercial vehicle. We work with lightweight modular equipment and provide tailor-made solutions. The modular construction allows you to put together your ideal interior with the exact shelves, drawers and spaces you need.

Thanks to an extensive network of specialized dealers, we can deliver fully customized Van Racking. Kits tailored specifically to your needs. Feel free to contact us for more information and an introductory conversation.

VAN CARE PRODUCTS

Van Care products are innovative, lightweight and durable. All products are made of ultra-high strength materials, resulting in minimal weight and maximum loading capacity.

SAFETY

All Van Care's Van Racking Kits are tested extensively. Crash tests are continuously being carried out at specialized research centers.

Simulation, load capacity and vibration tests are continuously researched and performed.

Time and time again our products have proven to be extremely safe. Take these results from one of our frontal impact tests for example.

The speed of the crash test was increased from 32km/h to 50km/h. According to the report, the material had been deformed, but without creating dangerous situations for the passengers due to the loosening of parts.

PROVEN QUALITY OF OUR PRODUCTS

Van Care guarantees optimal safety, today and in the future. Everything is made for functional use and safety during work and transport. The production is fully certified and complies to ISO 9001:2015 and TÜV requirements.

ARE OUR MAIN GOALS

FIND OUT MORE ABOUT OUR PRODUCTS

In our offer we have three major lines:

M_line

The Van Care M-Line is a lightweight, durable hybrid storage system that, due to its smart, innovative design and the use of multiple materials, is very suitable as a Van Racking Kit for all vehicles.

The M-line is made of aluminum in combination with steel to make it one of the lightest systems on the market.. Products are finished with a powder-coating treatment.

With the M_line line you can design the space of your van according to your needs and create an ideal and ergonomic workplace.

XLD_line

In addition to our standard racks, cabinets and other convenient storage systems, Van Care provides a line of large, strong, but lightweight drawers.

Whether you're looking for a false floor with access to sturdy drawers or want to turn some cargo space into an entire tower of functional and lightweight drawers, the XLD-line is the way to go.

B_line

This line provides a solid basis for an efficiently organized vehicle. The B-line is seen as the baseline in the field of Van Racking Kits.

The line is more affordable than our M-line, but with the same durability and functional capabilities. Thanks to the innovative design and the use of various high-quality materials, this system is an ideal installation system predominantly designed for Small & Medium Vans.

01 PANELS

01 Side Panels.

SP standard.

Side Panels SP

The Side Panels are the supporting pillars of our van racking system. All shelves, trays and drawers can be mounted with an vertical installation grid of 35mm. The perforated side panels offer the option of inserting accessories on the side of the panels. The Side Panels are available in construction depths of 260mm, 360mm, 460mm and in various heights starting from 105mm up to 1365mm. Several side parts can be mounted on top of each other, with constant or decreasing system depths, in order to build even higher. All the Side Panels are supplied in pairs.

SPDTP depth transition profile.

Side Panel Depth Transition Profile

This set of 2 SPDTP profiles can be shorten to wish. They must be riveted to the standard SP panels to create less depth. 460mm depth becomes 360mm.

EAN	ARTICLE	Dimensions / mm Width x Depth x Height	Weight / kg
01-0-234-00	SPDTP	79 x 29 x 950	0,8

SPHH horizontal panel with holes for PVC 110mm pipe.

Side Panel Hole Horizontal

Set of left and right panels SPHH with hole(s) for PVC pipe 110mm diameter. Exclusive pipe(s).

EAN	ARTICLE	Dimensions / mm Height X Depth	Weight / kg
01-2-821-00	SPHH0175.0260	175 x 260	1,2
01-3-821-00	SPHH0175.0360	175 x 360	1,4

SPS sleeve to increase the height of SP parts without restriction of the 35mm height steps.

Side Panel Sleeves

Set of 2 sleeves left and right. They can be slide over the Standard Panels. This enables you to increase heights stepless to connect to any part above.

EAN	ARTICLE	Dimensions / mm Height X Depth	Weight / kg
01-2-034-00	SPS 0260	280 x 266	2,0
01-3-034-00	SPS 0360	280 x 366	2,4

Side Panel Reinforcement

Set of 2 brackets left and right. To be used when the strength of the connection between 2 different depths of SP panels is important to get a strong rigid build. The depth difference can be 100mm or 200mm.

EAN	ARTICLE	Dimensions / mm Height X Depth	Weight / kg
01-6-001-00	SPR 0100	200 x 102	0,1
01-6-002-00	SPR 0200	200 x 202	0,2

02 CONSTRUCTION PARTS

02 Construction parts.

CF construction frame.

Construction Frame

The CF is a welded frame which gives structural strength in a module. Especially when several drawers or sliding trays are mounted. It gives in all directions and diagonal the needed support and strength to ensure the rigidity of the SP where in between the sliding parts are mounted.

It comes with 2 strong triangles, these can be mounted pointing downwards or upwards, depending on the position the CF is used and/or where the strength is needed.

EAN	ARTICLE	Dimensions / mm Height X Width x Depth	Weight / kg

03 FLAPS

03 Flaps.

F high flap with floor bar.

Flap, opening downwards.

This high F flap comes with a floor bar to be mounted on the floor between a set SP's. In this way the base is firmly fixed but guarantees the free movement of the flap opening and closing.

EAN	ARTICLE	Dimensions / mm Height X Width	Weight / kg
03-0-010-00	F 0507	350 x 507	2,3
03-0-020-00	F 0760	350 x 760	3,6

06-0-240-00	FMRHIBF 1521	190 x 1521	5,8

TF high flap telescopic upwards opening.

Flap, opening upwards.

This telescopic flap can only be mounted when a CF is used. The opening needed for the TF is 315mm between SB/HIB on the floor and CF above.

EAN	ARTICLE	Dimensions / mm Height X Width	Weight / kg
03-0-210-00	TF 0507	315 x 507	3,9
03-0-220-00	TF 0760	315 x 760	5,1
03-0-230-00	TF 1014	315 x 1014	6,0
03-0-240-00	TF 1267	315 x 1267	6,9
03-0-250-00	TF 1521	315 x 1521	8,6

**04 DRAWERS
& TRAYS ON SLIDES**

04 Drawers and trays on slides.

Van-Care Drawer range opening 100%

General information about Van-Care's Drawer range for modules.

Regular drawers come in 3 depths and 3 widths.

The 3 standard system depths are 260mm, 360mm and 460mm. The system Drawer widths are 507mm, 760mm and 1014mm.

Our "sideways" drawers come in 2 depths and 2 widths.

The 2 sideward depths are 507mm and 760mm. These are 2 of the standard system widths! But because we have "sideways" drawers they become depths! 90 degrees turned products. And then logically follows that the "sideways" drawers width is in a fact 2 of our system depths! Being 360mm and 460mm.

Drawer heights vary from 70mm until 315mm "working" height of the front.

In the following sequence: 70mm, 105mm 140mm, 175mm, 210mm and 315mm.

All regular Drawers come with 3 dividers and mounting blocks included.

Drawer glides are **not included**, they need to be ordered separately, in our presentation drawing program this is automatically added to the order list.

The higher Drawers 175, 210 and 315 in depth 360 and 460 can be equipped with a set of extra slides. This gives more load capacity per Drawer if required.

ADS drawers are in the system depth of 260mm.

3 Dividers included.
Slides are not included!
