OUR OFFER

VAN RACKING SYSTEMS

ABOUT US

Van Care has been a manufacturer in the field of commercial vehicle Van Racking Kits for many years. Our head office is located in Beek, The Netherlands, and our team consists of four employees. The production site is based in Poland, and has 100 employees.

VAN CARE OFFERS SOLUTIONS FOR EVERY TYPE OF COMMERCIAL VEHICLE.

We work with lightweight modular equipment and provide tailor-made solutions. The modular construction allows you to put together your ideal interior with the exact shelves, drawers and spaces you need.

Thanks to an extensive network of specialized dealers, we can deliver fully customized Van Racking.

Kits tailored specifically to your needs. Feel free to contact us for more information and an introductory conversation.

VAN CARE PRODUCTS

Van Care products are innovative, lightweight and durable. All products are made of ultra-high strength materials, resulting in minimal weight and maximum loading capacity.

THE BEST

SAFETY

All Van Care's Van Racking Kits are tested extensively. Crash tests are continuously being carried out at specialized research centers.

Simulation, load capacity and vibration tests are continuously researched and performed.

Time and time again our products have proven to be extremely safe. Take these results from one of our frontal impact tests for example.

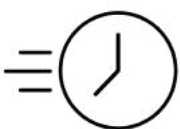

The speed of the crash test was increased from 32km/h to 50km/h. According to the report, the material had been deformed, but without creating dangerous situations for the passengers due to the loosening of parts.

PROVEN QUALITY OF OUR PRODUCTS

Van Care guarantees optimal safety, today and in the future. Everything is made for functional use and safety during work and transport. The production is fully certified and complies to ISO 9001:2015 and TÜV requirements.

SAFETY & QUALITY
ARE OUR MAIN GOALS

PERSONALIZED
PROJECTS

GREAT
TESTS RESULTS

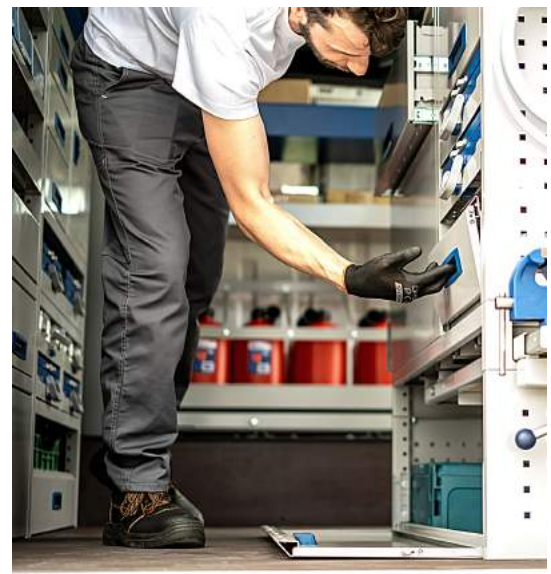

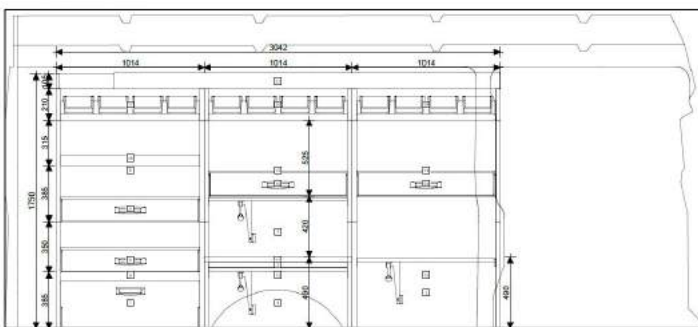

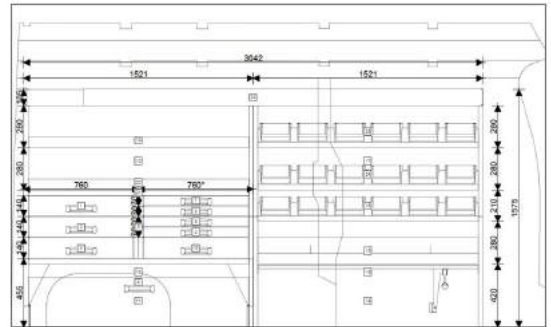

WE ADVISE, DESIGN, PRODUCE.

At Van Care, we realize the importance of a properly designed interior. Therefore, we place great emphasis on customer needs research and consultations. Adding to this many years of experience, we are able to design a car interior that will meet the expectations of even the most demanding customers. Customer satisfaction is our top priority.

Say what you expect and we will help you to achieve it.

XLD_LINE

In addition to our standard shelves, cabinets and other convenient storage systems from M_line, Van Care also offers the XLD line - large, strong, yet light drawers.

VAN CARE PRODUCTS - XLD_LINE

This new, innovative product is made of lightweight but highly durable materials. It allows for a very large cargo space. Whether you are looking for a double floor with access to sturdy drawers or you want to use a load space with light and functional drawers, XLD_line combines both in one product. It is the perfect solution for any vans, regardless of its size.

ROBUST AND LIGHT

XLD drawers are robust, strong, but at the same time light in XL size that run on telescopic ball slides. Each drawer has a load capacity of up to 85 kg (surface load). The frames provide a rigid and solid structure, while increasing the load capacity of the vehicle.

PERFECT QUALITY-TO-WEIGHT RATIO

Thanks to the intelligent use of high-quality steel and aluminum, and an innovative design, we have achieved the ideal strength-to-weight ratio for our XLD-line. All products are powder coated, and the ceramic layer used makes them scratch resistant.

DRAWERS FOR SPECIAL TASKS

DESIGN ACCORDING TO YOUR NEEDS

The modular construction of the XLD-line allows for a very wide range of possibilities and the adjustment of the space to the needs of the vehicle user. Drawers can be installed under the floor or as column-mounted in the utility part of the car.

USE WITHOUT LIMITATIONS

The drawers open 100%, which allows you to make the most of the loading space. An additional advantage is the access to the drawers from the outside, thanks to which they can be used freely and give unlimited access to the products and tools necessary for work.

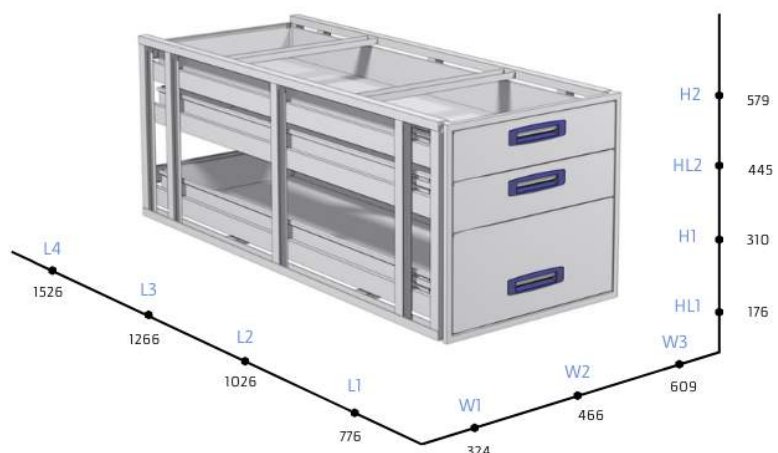

The load capacity of the divided surface of the flat drawer is 80 kg, thanks to which it can be used to store even the heaviest equipment.

ACCESSORIES

Choosing the right van racking modules is only half the battle. Very good organization of the workplace, those are primarily accessories. Containers, suitcases, handles with various functions make the space take on a completely new character, and most importantly, they secure the items necessary for work and organize the space.

TECHNICAL DATA

XLD Drawers and accessories.

Van-Care XLD Drawer range opening 100%

General information about Van-Care's XLD Drawer.

Regular XLD drawers come in 4 depths and 3 widths.

The 4 standard system depths are 776 mm, 1026 mm, 1266 mm and 1526 mm. The system Drawer widths are 324 mm, 466 mm and 609 mm.

Drawer heights vary from 176 mm until 579 mm. In the following sequence: 176 mm, 310 mm 445 mm and 579 mm.

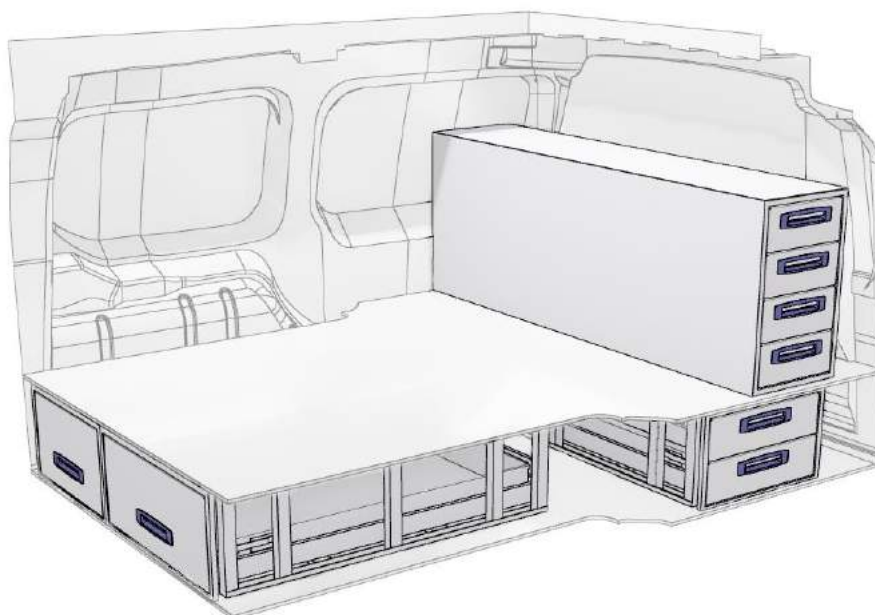

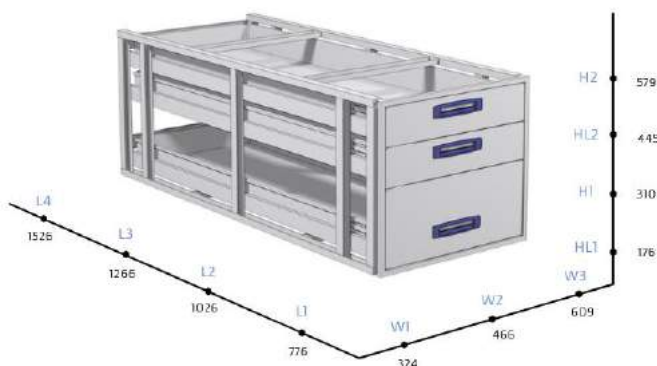

All XLD Drawers come with 3 dividers and mounting blocks included.

Drawer slides are included.
